Tuscan SeamClip

The world's first one-piece joint levelling system is designed to increase the speed and accuracy of the installation process by removing the need to uplift tiles to add more adhesive. Tuscan can be used on ceramic, porcelain and natural stone tiles from 3-13mm thickness on walls and floors. This product almost eliminates lippage by interlocking the tiles to create a flat, lip free, smooth surface. No tools are required.

Balcony Trim

B.A.T. Trims has launched a practical balcony trim which is designed to prevent surface tension transporting water to the adhesive bed of tiles overhanging balconies. Balcony Trim is available in two conventional thicknesses: 10mm and 12.5mm. Internal and external corners provide a watertight solution in standard matt silver and mill finishes. Other colours are available on request.
